Welcome to Business eBanking and the Business Authenticator mobile app.

The Business Authenticator mobile app will add an extra layer of security for ACH and wire transactions. This guide will walk you through activating the app in order to generate the One Time Passcodes (OTPs) that you'll need in order to approve these transactions. If you need support at any point in time, please feel free to call us at 877.920.6888, Monday – Friday 8 am – 5 pm. We look forward to continue to support your business banking needs.

Activating the Atlantic Union Bank Business Authenticator mobile app

1. To start, download the Atlantic Union Bank Business Authenticator mobile app from Google Play.

- Only Business eBanking users who are assigned to approve outgoing wires or ACH payments will be required to download and use the **Atlantic Union Bank Business Authenticator** mobile app.
- Business eBanking users who are assigned to initiate outgoing ACH payments or wire transfers will not be required to use the app.
- 2. Log in to Business eBanking.

Once you log in, the system will display the "Set Up Software Token Sign On" screen.

- Please note: VASCO DIGIPASS is the vendor branding for the mobile app. Please do not search for this phrase in your App Store as you'll find many different variations.
- If you're not ready to activate the app yet, you can select "Sign on page" to return to the log in screen or "continue signing on" to skip the soft token activation and continue to the Business eBanking Welcome page.
- 3. Open the Business Authenticator mobile app. Under Activation, click "*Scan QR code*" in order to scan the QR code that appears on the "*Set Up Software Token Sign On*" screen within Business eBanking. Once you've done this, click "*Continue*" in Business eBanking.

- 7. On the mobile app,
 - a. If this is the first authenticator that you are setting up, the app will ask you to set up a unique PIN in the screen below and click "**OK**".
 - i. The PIN is 4 characters minimum and 16 maximum, all digits and cannot be sequential values.
 - ii. Please retain this PIN for your records. You will be asked for the PIN to generate One Time Passcodes in order to approve outgoing ACH or wire payments via Business eBanking going forward. You will need this mobile app to approve any of these transactions.
